Professional Summary

Full Stack Software Developer with 3+ years of experience building scalable web applications, backend services, workflow automation systems, and enterprise integrations using the MERN stack (MongoDB, Express.js, React.js, Node.js). Experienced in OAuth 2.0 authentication, REST API development, Docker-based deployments, CI/CD automation, and third-party integrations including Salesforce, Jira, Slack, Google Calendar, and Outlook Calendar.

Currently pursuing a Master of Computer Applications (MCA) in Artificial Intelligence & Machine Learning at JECRC University, Jaipur, with a strong interest in backend engineering, cloud technologies, automation, distributed systems, and AI-powered applications. Proven track record of delivering production-grade solutions, mentoring junior developers, and owning features from design to deployment.

Technical Skills

Languages: JavaScript, TypeScript, Python, HTML, CSS, Bash

Backend & Frameworks: Node.js, Express.js, React.js, REST APIs, Socket.io

Authentication & Security: OAuth 2.0, JWT, RBAC

Databases & Caching: MongoDB, PostgreSQL, Redis

Messaging & Event Streaming: Kafka, Redpanda

DevOps & Deployment: Docker, GitHub Actions, CI/CD Pipelines, Netlify, Render, Heroku

Integrations & Automation: Salesforce, Jira, Slack, Google Calendar, Outlook Calendar, n8n, Webhooks

UI & UX: GSAP, Bootstrap, TailwindCSS, Material UI

Tools & Platforms: Git, GitHub, Jekyll, Jest, SuperTest, PgAdmin, Postman, VS Code, Figma

Practices: Unit Testing, Code Reviews, Agile Development, CI/CD Automation

Professional Experience

Software Developer, Enbraun Technologies **Jun 2023 – Sep 2026 –**

- Implemented secure OAuth 2.0 authentication flows for Salesforce, Google Calendar, and Outlook Calendar integrations, managing token refresh cycles and permission scopes across 5+ services.
- Designed and developed enterprise integrations with Salesforce, Jira, Slack, Google Calendar, and Outlook Calendar, enabling seamless cross-platform workflows for 30+ internal teams.
- Containerized internal services using Docker and configured GitHub Actions CI/CD pipelines, reducing deployment effort and improving release reliability.
- Automated Jira issue events and synchronized them with the eResource Scheduler platform, reducing manual operational effort by approximately 60
- Built Salesforce-to-project management workflow mappings that improved real-time project visibility and reduced status-update turnaround time by 40
- Integrated event-driven Slack notifications, reducing alert response time by 70
- Developed a custom n8n node adopted across 15+ internal automation workflows, reducing manual orchestration effort by 50

- Built and deployed an internal analytics dashboard using Metabase, exposing 25+ operational SaaS metrics for stakeholders.
- Mentored two software development interns through code reviews, sprint planning, and technical guidance.

Web Developer Intern, Enbraun Technologies **Jan 2023 – May 2023 –**

- Maintained and enhanced the company website using HTML, CSS, Bootstrap, and Jekyll.
- Automated blog publishing by developing a Bash-based content pipeline that converted Word documents into Jekyll-formatted HTML, reducing publishing time by 80
- Revamped feature pages to improve content clarity, user experience, and conversion rates by 15
- Implemented GSAP-based scroll animations to enhance user engagement.
- Improved website performance by 35

Projects

Chat Wave Live Demo

React.js, Node.js, Express.js, MongoDB, Socket.io, JWT

Full-stack real-time chat application featuring JWT-based authentication, WebSocket-powered messaging, responsive design, and real-time communication supporting 100+ concurrent users.

Shirt Decoy Live Demo

React.js, Three.js, WebGL

3D product customization platform allowing users to modify textures, colors, and logos in real time on a 3D garment model with thousands of possible customization combinations.

Education

Master of Computer Applications (MCA) – Artificial Intelligence & Machine Learning JECRC University, Jaipur

2026 – Present

Bachelor of Computer Applications (BCA) ICFAI University, Jaipur

Aug 2020 – Apr 2023 CGPA: 6.8

Languages

English, Hindi
